

# TEP12 - enumerations

- *Internal* TEP – no direct benefit to final users
- Taurus uses private enum implementation
- Enums in python  $\geq 3.4$
- Backport to python  $\geq 2.4$  available
- Human readable string representation and *repr*
- Error checking
- Iterable, pickable, comparable, hashable
- State: CANDIDATE

# TEP 8 – logging

- *Internal* TEP – no direct benefit to final users
- Step towards lighter taurus
- Work by C. Falcon
- Taurus logging initialization prevents it from being used as a library
- Logger class *pollutes* hierarchy with over 40 methods
- State CANDIDATE
